TECHNICAL SHEET
34-3015-EN

G-TEK® HYDRUS® GK270,15 GAUGE SEAMLESS KNITTED GLOVE, NYLON LINER, 3/4 FLAT NITRILE COATING WITH G2 FOAM NITRILE ON PALM AND FINGERS , OEKO TEX MADE IN GREEN.

- Constructed using a 15gg nylon liner and a dual-layer nitrile coating system, the Hydrus® range provides the user with unrivalled oil and liquid resistance whilst maximising comfort, dexterity, and grip from the very first use.
- Comprising of an initial 270-degree, knuckle coated flat nitrile layer to deliver liquid and oil resistance, the lower hand and wrist are left open to improve breathability and allow the hand to stay comfortable in warmer environments and to extend the usage period of the gloves. Overlaid with an additional palm coating in next-generation G² nitrile foam, grip and longevity are maximised in all environments and, during in-house testing, performance exceeded that of regular sandy or microfoam nitrile coatings, as well as traditional PU and latex options.
- The 24-28 cm length offers extra protection to the wrist area and prevents both dirt and liquid ingress.
- Both OEKO-TEX® Standard 100 and OEKO-TEX® MADE IN GREEN certified, the Hydrus® range is tested for harmful substances and produced in environmentally friendly and socially responsible facilities.
- Contact heat Level 1 tested for temperatures up to 100 °C.

APPLICATIONS
- Light manufacturing
- Logistics
- Equipment servicing

CARE INSTRUCTIONS
The gloves can be machine washed at 40°C with a standard detergent (3 wash cycles). Air dry. This helps extend the glove's lifespan and reduce costs and waste.

TECHNICAL SPECIFICATIONS

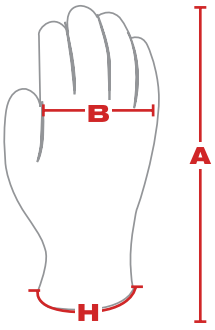

MATERIAL	Liner : Nylon | 3/4 flat nitrile coating, G2 foam nitrile on palm & fingers
CONSTRUCTION	Seamless knit
COLOUR	Liner: Black Red / Coating Black Red
WRIST STYLE	Knit wrist
SIZES	7 - 11
PACKAGE	12 pairs per bag, 120 pairs per case.
COO	China
