

MTS TRACK
S3S SR FO HI CI ESD

Based in southwest France since the company was founded in 1955, ANNIC SAS, better known as MTS More Than Safety is today one of Europe's foremost safety Footwear brands under the Honeywell portfolio.
A sports line designed exclusively by MTS: the unique design and colours of MTS sporty range models combine aesthetics research, ergonomics and technological efficiency.
This concept integrates three innovations: the cushion «Air Impulse» shock absorber on the heel, the «Flex Zone» to smooth the bending at the front of the foot and the «Free Walk» concept for an exceptional lightness.
These technological shoes are designed for intensive walking throughout the day as well as in prolonged static positions.
Injected in France and manufactured according to ISO 9001 and ISO 14001 standards.

FEATURES

- Suitable for Indoor/Outdoor use
- Recommendation: logistics, transport, warehouses, service companies.
- Composite toe cap protects against impact and crushing, moreover, with its integrated TPU strip, this improves comfort when bending the foot.
- Flexible and lightweight non metallic safety shoe, casual sporty design.
- Assembly of the upper by welding with HF (high frequency) technology, Without stitching for increased durability.
- 3D Mesh lining with high water absorption capacity (keeps the foot dry) and very rapid water desorption (avoids bacterial proliferation).
  Full slipper feeling.
- The materials making up the upper provide comfort and support to the fit.
  Origin Europe, low carbon footprint.
- Shock and abrasion resistant TPU heel reinforcement.
- ESD marking EN 61340-5-1 : 2016.
- Retro-reflective edging on upper, high visibility.
- Also available in XXL (extra-large variant), wider shape perimeter at the instep.

Upper	On Suede microfiber on gray NILO ondura canvas, water-resistant, breathable and water-repellent, high resistance to abrasion
Lining	Full blue Artico® 3D Mesh and black On Micro Suede microfiber on the heel, breathable and high abrasion resistance
Tongue	3D Mesh Ozone lined 3D Artico® Mesh on 10mm foam
Ankle protection	Gray ON DURA NILO canvas lined with blue 3D Artico® Mesh on 15mm foam
Fastening	Plastic lace loop and round laces Black color
Toe cap	Ultralight, extra large, made of athermic and non-magnetic composite material, with crush and impact resistance of 200 joules
Midsole	Composite on PROTECTOR DIAMOND, type PS (test on a fine point (3mm), non-magnetic and athermal
Insole	Full, thermoformed PU foam, activated carbon, ESD, removable, anatomical, antibacterial and antistatic, TITAN
Sole	PU 2D exclusive SOFT SYSTEM® concept, oil resistant FO, antistatic, HI-CI
Sole pattern	Multi-purpose, slip resistance conforms to SR standard
Weight (Kg/pair)	1.040 kg pair size 42
Color	Black Blue
Sizes	35-48 (2-13UK)
Standards	EN ISO 20345:2022; S3S SR FO HI CI ESD

ONE CONCEPT,
THREE MAJOR INNOVATIONS

AIR IMPULSE cushion at the heel that absorbs shocks

FLEX ZONE A flexion of the foot soft and comfortable, perfect for intensive walking.

FREE WALK concept for featherweight shoes (600g per shoe)

SPECIAL FEATURES

Electro Static Discharge
Standard EN 61340-5-1

Metal free, non magnetic

Water absorption and penetration resistance of upper (WPA)

A TPU strip injected directly over the toecap makes it invisible and very comfortable.

GENERAL FEATURES

- Antistatic properties (A)
- Oil resistant (FO)
- Heel energy absorption (E)
- Abrasion resistance
- Cleated outsole SR: Excellent Slip Resistance
- 200 joules extra-wide toe cap
- Heat-insulated sole ((HI) I)
- Cold-insulated sole (CI) (C
- Anti-puncture resistance with PS level
- Hyper-ventilated lining
