INSOLE ANTI-BACTERIA, ANTI-ODOURS
ONE SIZE FITS ALL
« CUT CLASSIC »

❶ DESCRIPTION & COMPOSITION

- Upside layer: Non-woven fabric, grey color, 100% polyester with Sanitized® treatment and binding long-life acrylic agent protecting from abrasion.
- Bottom layer : Latex foam with active coal and Sanitized® treatment
- Total thickness: 5.5 mm +/- 10%

❷ TREATMENT & PROPERTIES

This **active & exclusive treatment from Groupe JLF** offers an active protection against the main germs responsible for infectious phenomena of the skin.

- Impregnation complex for adults exclusive to Groupe JLF
- Impregnation complex for children exclusive to Groupe JLF

This solution brings supplementary guarantees in the fight against bacterial strains responsible for the development of bad odours on the feet.

Use for :

- Hygiene of the shoes (deodorizing, aseptising, refreshing)
- Prevention and neutralization of bad odours (fixing odours + very strong antibacterial properties)

Results of the Laboratory CTC Tests (tolerance +/- 10 %)

Tests	Standards	*Method*	Results
Absorption	EN 12746		270 mg/cm²
Desorption	EN 12746	% eau après 16 h	78 %
Resistance to abrasion	EN 13520	Cycles to make a hole Dry environment tested Humidity environment tested	 >25 600 >12 800
