# NEWTON FAST international version

NEWTON FAST is a lightweight, ergonomic fall-arrest harness that can be quickly donned. It is equipped with padded shoulder straps and FAST LT PLUS automatic buckles on the leg loops, allowing the harness to be donned with both feet on the ground, without loss of adjustment. It allows immediate access to tools, thanks to its equipment loops and slots for the TOOLBAG pouch. Its textile sternal attachment point, and its metal and textile dorsal attachment points, provide great versatility. It offers ergonomic stowage of MGO connectors and has fall indicators. It is certified to North American, European and Russian standards.

The FAST LT PLUS sternal automatic buckle allows the harness to be fastened and unfastened quickly and easily, without loss of adjustment, even with gloves. Lightweight and strong, the textile sternal attachment point allows attachment of a fall arrest system.

The metal dorsal attachment point allows attachment of a fall arrest system, and the textile dorsal attachment point allows attachment of a self-retracting fall arrest system.

The padded shoulder straps are widely spaced to reduce neck chafing.

The leg loops are equipped with FAST LT PLUS automatic buckles, allowing the harness to be easily donned with both feet on the ground. Fastening and unfastening is quick and easy, without loss of adjustment, even with gloves, and the unlocking system limits the risk of accidental unfastening.

| **Short Description** | Quick-donning fall arrest harness |

**Selling Points**

• Simple, lightweight design:
- anatomical design is close-fitting yet allows optimal freedom of movement
- textile sternal attachment point, lightweight and abrasion resistant
- anodized aluminum dorsal attachment point for great durability
- textile dorsal attachment point for attaching a self-retracting fall-arrest system
- padded shoulder straps are widely spaced to reduce neck chafing
- allows installation of a LIFT spreader for descending in an upright position
• Quick-donning and easy to use:
- harness dons with both feet on the ground, thanks to the leg loops and sternal strap equipped with FAST LT PLUS automatic buckles Fastening and unfastening is quick and easy, without loss of adjustment, even with gloves, and the unlocking system limits the risk of accidental unfastening
- shoulder straps equipped with self-locking DOUBLEBACK buckles for quick and easy adjustment
- two equipment loops and two slots for TOOLBAG tool pouch, for easy tool access
- stowage system for the MGO connectors on fall arrest lanyards, on each shoulder strap. In the event of a fall, the system releases the MGO connectors and allows the absorber to be deployed
• The international version has a fall indicator: a red strap appears, after a fall on the sternal or dorsal attachment point, to indicate that the harness should be retired

**Specification**

• Sternal attachment point: fall arrest system attachment
• Metal dorsal attachment point: for attaching a fall arrest system
• Textile dorsal attachment point: for attaching a self-retracting fall-arrest system
• Certification(s): CE EN 361, EAC, ANSI Z359.11, CSA Z259.10
• Material(s): nylon, polyester, aluminum, steel
