REFERENCE: 340

Box of 40 large instant cold packs (16 x 18 cm)

Description:

The single-use instant cold pack. It is ideal for instantly relieving bruises, sprains, and strains.

Uses and benefits:

- **Instant cooling pack**
- **Cryotherapy products use cold as a means of action, primarily causing vasoconstriction, which is a reduction in the diameter of blood vessels and therefore a decrease in blood flow.**
- **The goals are to reduce pain, to resolve inflammation or edema, to destroy skin lesions, to relieve pain due to sprains, muscle tears, among others.**
- **Dimension: 16x18**

- **Use :**
- **After pressure is applied and the pouch is shaken, it drops to -10°C before gradually rising to 0°C, which it reaches in 30 minutes. The materials used guarantee that there is no condensation on the pouch.**

Packaging:

Carton of 40 units.
